LOCATION

Start and secretariat are located in the amphitheatre next to the Õismäe pond. Finish is located near Rocca al Mare shopping centre, the exact location will be shown in the additional bulletin.

We advise you to arrive to the competition using public transport. Competitors who arrive by car should leave them near Rocca al Mare shopping centre. Clothes and bags will be collected from the start and taken to the finish.

The course will go through fascinating places in residential area of Õismäe, Tallinn Zoo and Rocca al Mare.

INFORMATION ABOUT THE COMPETITION

Christmas Run is a fun individual orienteering competition with a mass start, at some controls there are also additional tasks. Control points have to be visited in the correct order, the order is marked on the map.

The competition will start near the Õismäe pond as a mass start. Start will lead to three different courses with different lengths. The courses may have forking, but this will not change the length of the course. Traditionally, there will also be a labyrinth-orienteering as a part of the course (, additional info in the next bulletin).

Missing control adds 10 minutes to your time. Some controls could be passed in another way than reading your map. You can skip these controls with additional penalty time (10 minutes).

NB! Participants, who are dressed according to the theme of Christmas Run will have some time bonus:

- Running with an elf hat will give -2 minutes bonus in the results
- Wearing a Santa Claus costume while running will give -5 minutes bonus.
(The Santa Claus costume consists of: a coat + hat + belt + beard (recommended))

There will be a “fashion-police” in the start-zone, who will examine your costume and decide if you will be given time bonus.

IMPORTANT INFORMATION

The competition in Tallinn takes place on city streets which are open to traffic, therefore crossing roads is allowed only in places marked on the map. Going through forbidden zones is very dangerous and strictly forbidden! (We must remind you to rather have fun than take it as a serious competition.) Every competitor is responsible for his/her own health and safety

NB! A SI-card with more punches (6, 10, 11, AIR+) must be used in long and middle course. Any type of SI-card may be used in short course. The SI-AIR+ function is activated, but there may be some control points, where you can't use this benefit (for example in labyrinth-orienteeing)

Suitable SI-card number ranges are: 500 000... 999 999; 7 000 001 ... 9 999 999; 16 711 680 ... 16 777 215. If you are not sure, which SI-card you have, it is possible to check it on [Tak-Soft website](#).
